

MANUFACTURERS ARE YOU READY TO OPEN?

New rules from the State of California, Department of Public Health and Cal-OSHA require that your IIPP plan be updated with COVID-19 Safety. Cal-OSHA will enforce compliance, so don't be caught short,

If you don't know what the rules or how to implement them, the Nevada County Economic Resource Council can help, call the ERC at 530-274-8455

TO OPEN THE PLAN MUST BE IN WRITING

Establish a written, worksite-specific COVID-19 prevention plan at every facility, perform a comprehensive risk assessment of all work areas, and designate a person at each facility to implement the plan.

- ❑ Identify contact information for the local health department where the facility is located for communicating information about COVID-19 outbreaks among employees.
- ❑ Train and communicate with employees and employee representatives on the plan.
- ❑ Regularly evaluate the workplace for compliance with the plan and document and correct deficiencies identified.
- ❑ Investigate any COVID-19 illness and determine if any work-related factors could have contributed to risk of infection. Update the plan as needed to prevent further cases.
- ❑ Identify close contacts (within six feet for 15 minutes or more) of an infected employee and take steps to isolate COVID-19 positive employee(s) and close contacts.
- ❑ Failure to adhere to guidelines could result in workplace illnesses that may cause operations to be temporarily closed or limited.

The Nevada County Economic Resource Council in cooperation with the California Manufacturing Technology Consulting can help with **NO-Cost** assistance for writing the plan and training the staff.

Also if you need assistance with:

- Marketing
- Sales
- Human Resources
- Safety and Safety Manuals
- Website Design
- SEO Marketing

This **No Cost** assistance is yours, just call 530-274-8455
